

United Way helps Corinth VFD

Jul 14, 2021

The United Way of East Central Alabama presents a check to Corinth Volunteer Fire Department for help in the recovery from the tornado back in March. Bryant Whaley is shown presenting the check to Fire Chief Lee Knight on behalf of the United Way.

Whaley said these funds did not come from the Economic Development Authority but from the United Way. Angie McVeigh, resource development director of the United Way, told the department the funds were made available through donations from Randolph County designated for the county. "I know you were hit hard, and we are glad to help you in this way," said McVeigh.
